

P-9911(J) Fire Telephone Jack

Description

P-9911(J) is telephone jack socket, normally located at various places. Common installation positioning is in the landing levels of all core stairwells and escape routes, although the exact positioning is the responsibility of the project designer. The person on site with a mobile handset may just plug & talk to the control center. The unit should be mounted in a suitable and dry location at about 1.5m from finished floor level.

Technical Specification

- Jack Diameter: 6mm
- Environment Temperature: -10°C to 50°C
- Humidity: <95%, non-condensing
- Dimension: 85mm X 85mm X 12mm
