

Features

- ✧ Standard RS232 and USB interfaces.
- ✧ Connecting GST Graphic Monitor Center and GST Defining Tool.

Description

- ✧ P-9930 RS232 card is an optional card for GST200 series control panels, providing two photoelectric isolation RS232 interfaces for connecting with GST Graphic Monitor Center and GST Defining Tool.
- ✧ This card shouldn't be inserted and removed when it is energized.
- ✧ When entering calibration mode, pressing SK1 key (reset main board), it will display Color CRT OK if registration is successful.
- ✧ Modify Address of Communication Card: Press *SYSTEM* key, input Manager Password. After confirming the password, follow the next to operate: 3 Network Setup -> 1 NET Local Address, pressing the number chooses the option.
- ✧ LEDs:
 - 1) Main board communication HL1 LED: Red. It flashes when communicates with main board normally.
 - 2) External communication HL2 LED: Green. It flashes when communicates with RS232 or USB normally.
