P-9913(F)
Fixed Fire Telephone

Description

The P-9913(F) Fixed Fire Telephone is one of the component devices of the bus-type fire telephone system and must be used in conjunction with the GST-FT64(W) Fire Telephone Panel. In case of an emergency, pick up the fire telephone to call the Fire Telephone Panel. Before use, code it through the GST-FT64(W) Fire Telephone Panel. The factory-set address is defaulted to No. 1. The code can be set before installation according to the requirements of the project.

Order Information

Part No.	P-9913(F)
Device Name	Fixed Fire Telephone
Product No.	60103674
Compatible Products	GST-FT64 Fire Telephone Panel GST-FT64W Fire Telephone Panel

Technical Specification

Standby Current	<1.5mA
Call Current	<30mA
Ambient Noise	≤60dB
Frequency Response	300～3400Hz
Ringing Sound Level	≥70dB
Working Environment	0°C -40°C, ≤95%RH, Non-condensing
Dimension	80mm(W)×210mm(H)×48mm(D)
Weight	365g (with packaging box)

IMPORTANT: This publication is a generic version in which product information is shown for informational purposes only and does not constitute a specific commitment or guarantee. We are constantly pursuing the improvement of product technology to improve product performance, for which we reserve the right to adjust the configuration and technical information of the related products without notice. In addition, the description of system performance in this publication applies only to the usual situation. As a result, there may be a variety of unpredictable special circumstances in the real world, so the realization of the relevant product performance will depend on the professional investigation and analysis and the design plan. Please contact us and we will be happy to provide you with professional advice.
