

P-9913(J)

Fire Telephone Jack Socket

Description

The P-9913(J) fire telephone jack socket is primarily designed for use with the GST-FT64(W) Fire Telephone Panel. In the event of an emergency, users can plug a portable fire emergency fire telephone into this jack to call the Panel.

The P-9913(J) fire telephone jack has a diameter of $\phi 6.5$ mm and is compatible with the P-9913(M) fire telephone mobile handset.

Order Information

Part No.	P-9913(J)
Device Name	Fire Telephone Jack Socket
Product No.	60103672
Compatible Products	GST-FT64 Fire Telephone Panel GST-FT64W Fire Telephone Panel

Technical Specification

Operating Voltage	DC24V
Standby Current	<3mA
Call Current	<30mA
Ambient Noise	≤60dB
Frequency Response	300~3400Hz
Working Environment	0°C -40°C, ≤95%RH, Non-condensing
Dimension	86mm(W)×86mm(H)×35mm(D)
Weight	154g (with packaging box)
