

P-9957E Modbus Card

Description

P-9957E Modbus Card is supporting for MODBUS RTU communication protocol. It is optional for GST-IFP2E control panel, providing photoelectric isolation interfaces of RS485.

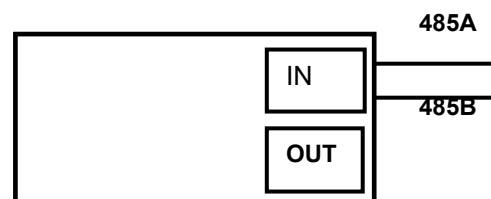

Technical Specification

- Compatible Panel: GST-IFP2E
- Nominal Voltage: 5VDC, 200mA
- Communication Interface: RS485
- Baud Rate: 4,800bps
- Communication Distance: less than 1200m
- Transmission Medium: 1.0 mm² or above twisted pair is recommended.
- Working condition: -5°C - 50°C, ≤93% non-condensing

Installation and Connection

Maximum 2 Network cards including P-9967EA CAN Card, P-9957E Modbus Card、P-9957E-RP Repeater card and P-9984EA Fiber Network Card may be used in the panel.

Below figure shows the external connection of P-9957E Modbus Card.

Order Information

Part NO.	P-9957E
Device Name	Modbus Card
Product NO.	20104928
