

P-9967EA CAN Network Card

Description

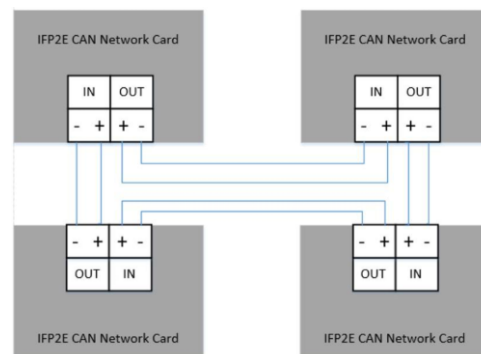

P-9967EA CAN Class A Network Card is essential accessory for the FACP to be networked by inserting the card into the slot of the panel's motherboard. Many separate FACPs can form a fire alarm network through the card.

Technical Specification

- Compatible Panel: GST-IFP2E
- Nominal Voltage: 5VDC, 200mA
- Communication Protocol: CAN
- Node Capacity: 250 panels
- Band Rate: 10,000bps
- Communication Distance: Max. 3,000 meters
- Cable Requirement: 1.0 mm² or above twisted pair, shielded twisted pair is recommended.
- Working condition: -5°C - 50°C, ≤93% non-condensing

Installation and Connection

Maximum 2 Network cards including P-9967EA CAN Card, P-9957E Modbus Card, P-9957E-RP Repeater card and P-9984EA Fiber Network Card may be used in the panel.

Order Information

Part NO.	P-9967EA
Device Name	CAN Class A Network Card
Product NO.	20104926
