

RB108C

8 Zone Relay Board

Description

The Relay Board for conventional panel, provides additional signal outputs for zonal fire and fault conditions. In case of fire or fault occurs in any zone, the corresponding relay will be activated, so that the conventional system can be integrated to 3rd party system.

Certificates and Compliance

- CE Certifications: CE-LVD & CE-EMC

Technical Specification

- Compatible Panel: GST108S/GST116S/GST132S
- Output Mode: Normal Open Dry Contact
- Contact capacity: 1A/24VDC

Order Information

Part No.	RB108C
Device Name	8 Zone Relay Board
Product No.	20104707
